COLLECTION BIORE | 2019 - 2020

BIORE

Noble & Elegant

Noble & Elegant

Biore collection embodies laconism, simplicity and all-consuming peace. The warm coziness of the classic interior creates a relaxing atmosphere in which the whole assembly of elements is imbued with peace, tranquility and harmony.

The storage system in the over-the-toilet storage cabinet impresses with its capacity, accuracy and the ability to save usable bathroom space. A pair of pendant lights is considered to bring creativity into the design of the bathroom and to become an accent element of your interior.

A neat model of acrylic bath does not make the space more burdensome, but creates a truly modern trend of the last decade, as well as a harmonious and balanced appearance of the entire room. Hydro & air massage systems perform the full body massage with the help of water jets under pressure. Creating the effect of roiling water this type of massage is suitable for effective impact on the back, thighs, buttocks region and on feet.

The collection is complemented by a model of squat toilet with a horizontal outflow and stylish wall mounted ceramics that allows you to choose a solution for any space.

The perfect geometry of the Biore collection mixers, their equipment with Hungarian Kerox cartridges and

the German plastic cascade aerators Neoperl ensure a reliable guarantee of quality and long operation life of the products.
