**Use and care
of acrylic and iron cast baths**

laviniaboho.com

Dear Customers!
Thank you for having chosen Lavinia Boho products.

Product designation

Baths are to be installed in sanitary facilities of multifunctional buildings and intended for sanitary and hygienic application.

Before installation

Installation and operation manual for the specific product is attached to the purchased product and packaged in a container. Read and follow this instruction manual in order to avoid injuries and property damage.

Baths shall be installed by qualified sanitary technicians.

Before installation the bath shall be stored in an undamaged original package in dry and ventilated location not less than 1 m from heating appliances and protected from direct sunlight. In case of prior unpacking, the bath shall be reliably packaged again in such a way as to avoid its contamination and damage.

Do not put any things on the bath (also when packaged). The product is subject to mechanical damages.

Instructions for use and care of the bath

Correct installation of the bath provides normal water drain.

Use the bath for intended purpose only.

In order to prevent rusty points, it is recommended to wipe enamel or acrylic bath surface with a soft cloth after each use.

Do not use bad water (hard water, water with mechanical impurities, etc.) for the product.

Enamel or acrylic bath surface is easy-to-clean. Use warm soapy water to clean the surface; do not use abrasive, acid, alkaline or other aggressive cleaning agents, different solvents, including organic solvents, as they may damage the bath surface. Do not use hard and wire brushes for cleaning acrylic and cast iron products (and other cleaning means that may damage the bath surface).

Annually check installation position and reliability of the bath.

Keep out of direct sunlight.

It is strictly prohibited:

- pour cement and adhesive mixtures into the bath;
- put or drop heavy things on the bath.

Terms of warranty

Complete list of warranty terms can be found in attached documents: warranty card and installation and operation manual for the bath.

Manufacturer and Seller warrant operational suitability of the bath and its usability for the purpose intended within the warranty period.

Extra information

There are no toxic pollutant emissions from the bath during its installation and use.

Our products have no harmful effect on human organism.

Acrylic and cast iron baths are not subject to obligatory certification.
